

NEW SMART HOME SAVINGS OFFER CAN HELP INCREASE YOUR PROPERTY SALES

Travelers Has Teamed Up with Amazon to Create Travelers Smart Home Insurance Solution

Introducing Travelers Smart Home Insurance Solution with two new ways your customers can save on smart home protection.

Consumers in select states who purchase a Travelers dwelling policy are eligible for a FREE, all-new Amazon Echo Dot. They're also eligible for discounts on a smart home device kit which can help protect them from fire, water and security threats.*

Consumers in select states who purchase other property policies, such as tenant, condo and landlord are eligible for a discounted smart home device kit.*

And, when customers install these smart home devices, they are eligible for Travelers protective device discount to help them save.

Here's how it works:

- 1 Consumer purchases** a Travelers property policy (make sure you capture customer email address).
- 2 Travelers sends the customer an email** with instructions on how to redeem the offer.
- 3 Customer visits web page** to receive offer redemption code(s). Customer is directed to Amazon.com to redeem the offer with their code(s).

That's it! This is just one more way that Travelers is committed to offering you innovative solutions to help you grow your business. If you have questions, please contact your Travelers Personal Insurance Sales Executive.
